Voon Reports.

From St. Louis. Sr Louis, August 26 -Gen. Schofield's order mentioned vesterday says large numbers of men from the rebel armirs in the Mississippi valley are returning to Missouri; that the State is in danger of a repetition of the scenes of violence and bloodshed which characterized the months of July and August of last year, and that the united efforts of the loval citizers and troops in this department will be required to avert the evil. Gen Schoffeld says all who voluntarily ahendon the rebel cause will be released upon taking the out!, of allegiance and giving bond for their future good behavior, but those engaged in robbuggand murder will be exterminated without

MEDICAL. DR. JOHN BULL',

COMPOUND CEDRON BITTERS Attorney at Law

mch19-'63-dly

The Latest and Most Important Discovery of the Nineteenth Century.

O MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Ma eria Medica of the United States, o more favorably known as a placer in medical discovery, than that of JOHN BULL, of Louisvi le Ky. Hi-in-mitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drag. His compound Pectoral of Wild Cherry has become a bou-chold word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction, attained a reputation as widespread a the continent of North America. But the crowning glory o his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON which is the basis f the bitters now offered to the public. That honor belongs to the native inhabitants of Central America. to whom i s virtues have been known for more than two hundred years. Armed with it, the Indian bids defiance to the most deadly maleria, and handle- w thout fear the most venomous serpents. It is a belief with them that whil-there is breath left in the body the Cedron is potent to cure, no matter what the does e may be. While Dr. Bull is not prepared to inderse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues. that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long enjoyed n Central America and the West Indies. In

DYSPEPSIA

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the eleventh edition of the U.S. Dispensatory, pages 1387

for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other improved tonics, the Bourbon whisky, which he is confident has no equal in He might turnish a volume of certificates, but the publie have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS

one trial, and you will never use any others. It is not nece-sary to publish a long list of diseases for which the Cedron Bitters are a specific. in all diseases of the STOMACH, BOWELS, KIDNEYS In all affections of the BRAIN depending upon derangement of the Somach or Bowels; In GOUT, KHEUMATISM and NEURALGIA;

And in FEVER AND AGUE; It i destined to supersede all other remedies. It not nly cures all these diseases but it prevents them.

A wine glass full of the Bitters taken an boor before each meal will obviate the ill effects of the most unhealthy climate and screen the person taking it agains disease under the most trying exposure Sold by Druggists and Gr. c. rs generally. Dr. JOHN BULL'S Principal Office, Fifth street, Louis-
